*Response to claim rejections*

Applicant notes that claim 1 has been amended to recite that the anti-oxidant comprises jojoba leaf and/or an extract therefrom. Accordingly, claim 1 recites cosmetics containing

willowherb and/or an extract therefrom, and at least one selected from the group consisting of a humectant, a cell activator, an anti-inflammatory agent and an anti-oxidant, wherein the anti-oxidant comprises jojoba leaf and/or an extract therefrom.

Applicant respectfully submits that none of the cited references - Murad, Vollhardt, Cannell, or Soler - disclose or teach the presence of jojoba leaf and/or an extract therefrom. Therefore, Applicant respectfully submits that none of the cited references anticipate or render obvious the presently claimed invention.

Applicant furthermore directs the Examiner's attention to Table 3 at page 34 of the present specification, wherein it is clearly seen that compositions comprising willow herb (or an extract thereof) and jojoba (or an extract thereof) exhibit excellent antibacterial activity.

Applicant respectfully submits that withdrawal of all of the rejections based on prior art set forth in the Office Action of April 5, 2007 is proper.
